2 Introduction

This document lists all the physical files and data areas in SEE/Change and provides a brief description for each.

3 Files

File Name	Description
CONFIG	Configuration data area format (no data)
FILTER	Selection Filter data area format (no data)
FLDREF	Field Reference File (no data)
GDA	Group Job Details data area format (no data)
LDA	Local Data Area data area format (no data)
LOCPRM	Parameter data area format (no data)
LOCPR2	Parameter data area format (no data)
LOCTXT	Local Text parameters data area format (no data)
LOCXRL	Release Information data area format (no data)
MRG	Thenon/ONE Merge/Compare request File
O#AAD	Additional application libraries descriptions
O#AAD_A	AUDIT O#AAD Additional app libs Description
O#AAL	Additional application libraries
O#AAL_A	AUDIT O#AAL descriptions application libraries
O#ACT	WDS Sc Popup menu actions
O#APA	Application area file
O#APAX	Application area file (copy for release packet)
O#AUD	Authorised users for distribution
O#AUD_A	AUDIT O#AUD Auth Users for Distribution to Systems
O#BND	Binding logs
O#CAT	SQL Catalogue Views
O#CDT	Compilation extract file
O#CFGA	Configuration audit areas
O#CRF	Cross-referencing master
O#CRL	Cross-referencing Audit log
O#CVATP	Convertible Source Types/Attributes
O#CVT	Source Conversion Log
O#DBL	Database Management Commands Log
O#DBM	Database Management Commands
O#DDL	SQL Data Definition Language statements
O#DFT	Programmer Default Options
O#DOC	CR document register and history
O#DOCWP	DLO Transfer work file
O#DOCXP	DLO Transfer file
O#DRF	Archive delete requests

File Name	Description
O#EFG	Environment flags
O#EXT	DLO File Extensions
O#FFD	SEE/Change file field descriptions
O#FUN	Internal functions file
O#GHS	GitHub SHA ID's
O#HDM	Version HDM tracking file
O#IARC	Stream file archive (no data)
O#LEMP	ILE attribute mapping
O#LERP	ILE part relationships
O#LERPX	ILE part relationships (copy for release packet)
O#IMV	Stream File Movements log Header
O#IOB	CR Stream File Parts Register
O#IOP	Stream File Movement Operations
O#IOR	Stream File Main Object Register
O#IPH	Stream File Folders Register Header
O#IPR	Stream File Folders Production Paths Register
O#IRT	Stream File Objects Retrieved
O#I90F	I90 Import filter
O#LNSLOG	Lansa Import Log
O#LOC	Locations file
O#LOCX	Locations file (copy for release packet)
O#MDL	SEE/Change Model for WDS view
O#MER	Movement Error Log
O#MODRP	Module pool registry
O#ND	Notification Centre Details values
O#NH	Notification Centre Header
O#NL	Notification Centre User lists
O#NSO	None Source Based Object register
O#NTL	User Relationship Notes
O#NU	Notification Centre Users in list
O#OBV	Object version control
O#OCR	Movement Overrides to be applied
O#OSR	Overrides for Source
O#OVR	Application Overrides
O#OVRX	Application Overrides (copy for release packet)
O#PGMRP	ILE Program to Module reference
O#POL	Target pool ID for new members
O#POLX	Target pool ID for new members (copy for release packet)

File Name	Description
O#POPP	Programmer Options
O#PRE	Environment Pre-requisite registry file
O#PXC	Prevent Cross-Reference auto-recompile details
O#RCO	Cross-referencing required recompilations
O#REX	XRef external libraries
O#RFC	Release Forwarding Configuration
O#RFC_A	AUDIT O#RFC Release Forwarding Configuration APP/S
O#RFCX	Release Forwarding Configuration (copy for release packet)
O#ROV	Overrides for DMS Submit of RCVLRS job
O#RRQ	Retrieval Requests
O#SRF	Saved Report Formats
O#TCL	Archiving Library Control Defaults
O#TED	Task Schedule excluded days file
O#TFI	Object Transfer history
O#TLL	Archiving Library Control
O#TOJ	Take on Jobs Run Status / History
O#TSD	Task Dependency File
O#TSK	Task Schedule File
O#TSP	Task Phases File
O#USR	User Authority File
O#USR_A	AUDIT O#USR User authority file
O#USRG	GitHub user authorisation token
O#VRN	Other versions of CR object
O#WKTL	Object Name Work Template
O#WRKDV	Dependency validation work file
O#161T	Removing modules temporary file
O#168W	Work File for O#168 Validate cross-referencing source dependencies
O#956W	Directory listing from GitHub
O#981W	CHKCR GitHub branch changes workfile
OMSTXT	Text Members (including template members)
O#246W	CHKCR GitHub branch changes workfile
SETS	Sets and Hierarchy (As/set interface)
XAA	Authorisation List Archive
XAC	DSPFD output file for determining journal attributes (OMS060)
XAL	Thenon Authorisation lists for CR movements
XAL_A	AUDIT XAL Authorisation Lists for CR movements
XAO	Application object register
XAP	Application Master

File Name	Description
XAL_A	AUDIT XAP Application file
XAPC	XAPC - Application control
XAPC_A	AUDIT XAPC Application control
XAPG	XAP to GitHub repository cross reference
XAPX	Application Master (copy for release packet)
XAS	Application Source register
XAS_A	AUDIT XAS Application Source Register
XASX	Application Source register (copy for release packet)
XAT	TAL Tracking File
XAU	Application object authorisation
XAU_A	AUDIT XAU Application Object Authorisation File
XCR	Change Requests Master
XCREXT	Change request extension information
XCRX	Change Request Master (copy for release packet)
XDR	DSPDBR output file
XDRX	DSPDBR output file
XDS	DSPFD output file
XEF	Database register file
XEF_A	AUDIT XEF Database Register File
XEFX	Database register file (copy from release packet)
XEN	Environment register file
XEN_A	AUDIT XEN Environment Register File
XENX	Environment register file (copy from release packet)
XFF	DSPFFD output file
XFR	DSPFD output file (*RCDFMT)
XHD	Help Text Directory File
XIF	Internal Functions File
XIM	Import register file
XIR	Investigation Requests Master
XIREXT	Investigation request extension information
XIRX	Investigation Requests Master (copy for release packet)
XJA	JDE archive
XJF	JDE Flexible Files
XJG	Job Group register file
XMB	DSPFD output (*MBR)
XMD	CR movement data member log file
XME	Comms Manager - Monitor request routing register
XMG	Message File register

File Name	Description
XMI	Message Id Register
XML	DSPFD output file (*MBRLST)
XMN	Menu Master file
XMO	Menu Option register
XMR	Comms Manager - Monitor request register
XMV	CR Object Movement Log File
XND	Network Arrived files (output for WRKNETF)
XNS	CR Network Status file
XOB	CR Objects register
XOBX	Object Register (copy for Release Packet)
XOD	DSPOBJD output file
XODX	DSPOBJD output file
XOF	Output for PRTDOC
XOT	Object Type Register file
XOV	Object Override Register
XOVX	Object Override Register General Parameters Data
XPD	General Parameters Definition
XPD_A	AUDIT XPD System Parameters Definition File
XPF	DSPFD output (TYPE(*ATR) FILEATR(*PF))
XPR	General Parameters Data
XPR_A	AUDIT XPR General parameter file
XPRX	General Parameters Data General Parameters Data
XPT	DSPFD output (TYPE(*ATR) FILEATR(*PF))
XRD	Communications Manager – Transfer Request Data Delivery Log
XRF	DSPPGMREF Output file
XRFX	DSPPGMREF Output file
XRL	Communications Manager – Transfer/Monitor Request Log File
XRO	Communications Manager – Transfer Request Routing File
XRP	Release Packet Register file
XRPX	Release Packet Register file (copy for release packet)
XRQ	Communications Manager – Transfer Request Master File
XRS	Release register file
XRSX	Release register file (copy for release packet)
XSI	Site Master File
XSI_A	AUDIT XSI Site Codes
XSIX	Site Master File (copy for release packet)
File Name	Description
XSP	DSPFD TYPE(*SPOOL) output

XSR	System pass-through routing entries
XSRX	System pass-through routing entries (copy for release packet)
XST	Application Statistics File
XSY	System Master File
XSY_A	AUDIT XSY System Codes
XSYX	System Master File (copy for release packet)
XT1	IR/CR Conversion Table generated by PRGCHGDTA
XT2	Release Conversion Table generated by PRGCHGDTA
XUS	User sign-on master file
XW1	Work File for Help Directory create
XW4	Help Reference Work File
XW5	Work file used by function CHKCFG
XW6	Work file used by function CHKDB
XW7	Work file used by function CHKDB

4 Data Areas

Data Area Name	Description
ADKLIBL	AS/SET Interface
CFGLCK	Configuration function in use
CONFIG	Template for runtime environment
JOBDTA	Communications manager control
LASTAR	Last stream file archive ID
LASTAUD	Last Audit ID Used
LASTIM	Last stream file movement transaction number
LASTIR	Last IR number
LASTMG	Last execution message ID number (No longer used)
LASTMR	Last monitor request number
LASTMV	Last movement number
LASTNH	Last notification number used
LASTNL	Last notify user list
LASTPT	Last stream file path code number
LASTRL	Last release number
LASTRN	Last rename object name number (release packet processing)
LASTRQ	Last software transfer request number
LASTWL	Last work library / movement archive library number
NTNTNO	Next note number
UPDPRM	Required UPDPRMDTA control
WDSCVER	WDS client version compatibility control
